

Fuel Dispensing Machine

BT-FVM-25

BROIL fuel dispensers is fully electronic with precision metering system, for fueling diesel, gasoline and kerosene, separate and combined pump is both offerable with features like convenient maintance, high percision flowrate and excellent electrongnetic compatatibilty.

Technical Data Sheet

Model	: - BT-FVM-025
Flow Rate	: - 0-60/120L/MIN
Voltage	: - AC 220v,
Power	: -550w
Accuracy	: - $\pm 0.3\%$
Height	: -52Cm
Allocation	: auto nozzle, 4Meter Hose

Application:

Fuel vending and dispensing from storage to construction site vehicle, Mines vehicle, fishing boat, motor bike, D.G. Set tank and many more application of fuel refueling
